

TranSafe Virtual Terminal

Sophisticate, fast, and secure payment processing

Brought to you by i3 Verticals, the leaders in payment processing. TranSafe provides ISV partners more than superior payment platform technology with top-notch service.

Integrate easily with trusted and secure tools and services that enhance the value of your solutions. Let us show you how easy it can be.

INCLUDED	BENEFIT
Credit card processing	Allows merchants to accept any major payment type with low processing costs
ACH processing	Enables merchants to easily accept Automated Clearing House payments (electronic payments)
EMV support	Allows merchants to accept chip cards when processing payments face-to-face
Level 3 processing	Significantly minimizes transaction fees for B2B, B2G, and nonprofit merchants
Advanced recurring transaction management	Allows merchants to charge on a recurring basis and re-process declined transactions, increasing authorization success and revenue
Secure card tokenization	“Out of Scope” technology allows you to access card information without the compliance and security risks of storing card data
Point-to-Point Encryption	Industry-standard, peer-reviewed strong cryptography protecting cardholder data
PCI and regulatory compliance	Meets or exceeds PCI and PA-DSS compliance requirements
Multi-processor support	For greater flexibility, more processing options, and lower costs to your merchant
Simple integrations	A full-function API makes it easy to connect application software to TranSafe
We invite you to call our sales team at 888-991-7040 to arrange a demo	

YOUR GOAL:

Increase
revenue.

YOUR PARTNER:

i3 Verticals.

YOUR TOOL:

TranSafe
Virtual
Terminal

You're tasked with creating world-class technology solutions for your merchants. Solutions that do it all—and do it well.

i3 Verticals is here to help you **provide payment processing solutions and drive even more value for your merchants.** TranSafe is a remarkably robust payment engine that provides end-to-end integration and security along with tools and services designed to make payment processing painless.

SEAMLESS INTEGRATION. Simple REST API | Free test environment | Dedicated support and account management

ATTRACTIVE REVENUES AND CLEAR PRICING. Generous commissions | Residuals paid monthly | Competitive fees for your merchants

HIGH APPROVAL RATES. Our close integration with banks yields high approval rates and more processing options

SECURE AND COMPLIANT. Tokenization maximizes fraud protection and takes PA-DSS out of scope | EMV and Point-to-Point encryption | Full PCI compliance management

Add an intuitive virtual terminal, white-label branding, and industry leading support, and you have TranSafe. Payment processing should be the easiest part of running a business.
